THE OLDEST ESTABLISHED NEWSPAPER IN THE FAR EAST

Est. 1845.

No. 28,238

HONG KONG, FRIDAY, OCTOBER 14, 1932.

PRICE \$3.00 Per Month.

EUROPEAN WOMEN TRAPPED BY PIRATES IN SHIP'S CABIN

SHANGHAI
CAPTAIN'S
OPTIMISTIC

Hong Kong Ponies
Faster & Taller.

FIRST ALL-AMERICAN TEAM.

Judge C. S. Franklin, captain of the Shanghai Polo team in an interview with the *China Mail* to-day said that Shanghai's chances were bright. "There will be some difference in ponies. Ours must not be over 14 hands high, whereas Hong Kong's ponies are allowed to be 14.2 hands high. The difference, coupled with the fact that they are raced, will make a difference in the speed. However, our mounts are very hardy, and we are fully confident that we will give Hong Kong a good battle."

The Shanghai ponies were given a workout yesterday, and all but one seemed to be in fine fettle. One was found to be a little short but it is not expected to make much difference to Shanghai's chances in the match. Judge Franklin stated that he was sorry he could not stay in the Colony for a longer period, but said that they were all very lucky to get away at all.

An interesting point was brought up when the Judge said, "I have a little gray that has played in every polo port in China. She has been with me for five summers, and is still one of my sturdiest mounts."

Judge Franklin said that this year's team is the first one that has been an All-American combination, and he is the first American to captain a Shanghai team against the Colony.

The Keswick Cup, which the Judge has brought down with him, was then borne away to be cleaned and polished. It has been a bone of contention between Shanghai and Hong Kong since 1907, and Shanghai have won it since 1913 when E. H. McMichael, P. Brighton, R. I. Fearon and V. Davies, won the trophy from the Colony.

(Continued on Page 9.)

BOXING.
MCCORKINDALE WINS
OVER COOK.

Technical Knock Out In
Tenth Round.

MAY MEET GAINS.

London, To-day. Don McCorkindale, the South African champion, gained a technical knock-out decision over George Cook, the veteran Australian champion, in the tenth round of a fifteen round bout at the Albert Hall last night. The bout was an eliminating bout for the British Empire heavyweight title. — Reuter.

Larry Gains, the Canadian negro, is the present holder, having beaten McCorkindale on points, after having fought a draw on the occasion of their first meeting.

Great enthusiasm was aroused by the Gains-McCorkindale bout, and, now that Gains has received little encouragement in America, a third fight is eagerly awaited by all followers of the game.

WAGE CUT POSTPONED TO
ASSIST SETTLEMENT.

Negotiations Proceeding In
Cotton Dispute.

London, To-day. The proposed reduction in wages of Lancashire cotton spinners, due to be enforced on October 17, has been postponed until October 22, with a view to facilitating negotiations which are at present proceeding to Manchester.

The Ministry of Labour is assisting the operatives and mill owners to reach a settlement. — Reuter.

LONDON PARLEY
CLEAR'S WAY TO
ARMS CONCLAVE

Anglo-French Amity
Maintained.

DISCUSSION PROCEEDING.

London, To-day.

Anglo-French Conversations with a view to clearing the way to a resumption of the Disarmament Conference, were held both morning and afternoon between Premier Ramsay MacDonald, Premier Herriot, Sir John Simon and the French Ambassador.

The Conference adjourned at 6.30 p.m., when a communiqué was issued stating the conversations had been carried on in the friendliest spirit and were resuming to-morrow.

M. Herriot, however, laconically replied, "not much," when asked what progress had been made, but it was declared by the British side that the day had been most satisfactory.

The discussion promoted better understanding, assisted the removal of obstacles, it was stated, and nothing occurred to cause the British Government to reconsider or withdraw the invitation to the Five-Power Conference in London, official circles added. — Reuter.

EMPIRE RATIFIES NEW TARIFFS

BRITAIN TO HASTEN HER LEGISLATION

HUGE EXPORT BENEFITS

London, To-day.

From around the world the voices of Empire possessions rang to-day, approving and implementing the new Imperial Tariff Preferences, ratifying pacts conceived at the Ottawa Conference or setting in motion legislative machinery which will accomplish this end.

The geographical position of the Fiji Islands, earned them the distinction of being the first unit of the British Empire to ratify the Ottawa preferential Tariff agreements. The Legislature agreed to the new duties this morning and its lead was closely followed by other parts of the Empire.

The New Zealand House of Representatives agreed without a division.

The new Canadian Tariff Pact became effective at midnight and the ratification will be the first business of Parliament.

Changes in the Australian tariff will be effected by tabling the new schedules in the House of Representatives.

Similarly, in South Africa, where the agreements were published in a special Gazette, the new duties come in force immediately, subject to Parliamentary sanction.

The Rhodesian agreements were also made effective to-day. The agreements come up in Britain immediately Parliament reassembles on October 18. Tuesday next, and the Government is expected to institute a time-table to ensure the passage before November 15, when the free entry of Dominions products will otherwise cease.

Different Procedure.

London, To-day. Prompt steps were taken yesterday in various parts of the Empire to put into operation measures to give effect to the agreements with Great Britain which were reached at the Ottawa Imperial Conference and which have been published simultaneously in all Dominions. Constitutional procedure varies in different parts of the Empire.

In Canada the new scale of preferences became effective following the passing of a Government resolution, and are now in operation. In South Africa immediate effect has been given to the agreements by administrative action.

In Australia, legislation has been put in train to give effect to the various agreements will become effective. — British Wireless Service.

the new preference formula to be applied to a wide range of goods. In regard to goods already enjoying higher preferences than those subject to formula, these remain as now, and although extensive reductions in duties are also contemplated, these can be made only on Tariff Board recommendations.

Some such reductions have in fact been made since the Ottawa Conference.

In New Zealand also the agreement takes immediate effect, subject, as in other cases, to Parliamentary ratification.

In England special legislation is necessary, and an appropriate financial resolution which must precede it will be moved in a two days' debate. The Bill will then be taken through all its stages without delay so that it may reach statute by November 15, when the right of free entry for Empire products under the Import Duties Act ceases and the new schedules to

the various agreements will be come effective. — British Wireless Service.

IRISH PARLEYS TO RESUME.

Mr. De Valera Comes To London.

London, To-day.

Anglo-Irish negotiations were resumed at the Dominions Office in London to-day.

Mr. Eamon de Valera reached London last evening accompanied by the Irish Free State Finance Minister, Mr. MacEntee, the Minister of Justice, Mr. Geoghegan, and Attorney General Maguire. They were greeted at the station by the Dominions Secretary, Rt. Hon. J. H. Thomas, and Mr. Malcolm MacDonald, the Premier's son, who is Under-Secretary for Dominion Affairs. — British Wireless Service.

THE PRINCESS IN HAMBURG.

Prince Of Wales Stays Over At Hague.

London, To-day.

Although they remained only one night in Hamburg, the Prince of Wales and Prince George spent many hours visiting different parts of the great port, including a typical block of workmen's flats which they entered, talking, for some time with the occupants.

Before mid-day they were seen off by the Burgomaster at the Aerodrome before flying to Amsterdam. After a short stay (Continued on Page 12.)

PREFERENCES APPROVED BY H.K. ORDINANCE

To Increase Trade Within Empire.

HEAVY MOTOR DUTIES.

A Hong Kong Government Gazette Extraordinary, published to-day, gives the effect of law to a Bill "to secure an increased trade between the Colony and other parts of the British Empire," and enforces a special fee of 20 per cent. of the value of all "foreign-made" motor vehicles. The new measure is cited as the Empire Preference Ordinance and is designed as a part of the Empire-wide plan for mutual trade protection.

Word was received in the Colony to-day, simultaneously with the issuance of the Gazette Extraordinary, that all parts of the Empire had formally approved the new Imperial preferences, while the Parliament of Great Britain will hurry the ratification of its agreements with Colonies, Dominions and other British States, at the forthcoming session, opening on Tuesday next.

The Ordinance, approved by His Excellency, the Officer Administering the Government, reads:

"The British Empire includes the United Kingdom of Great Britain and Ireland, the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand, the Union of South Africa, the Irish Free State, Newfoundland, India, all British Colonies and all territories under His Majesty's protection. It shall also include, if for the purposes of this Ordinance the Governor in Council by Order so directs, any territory in respect of which a mandate of the League of Nations is exercised by the Government of any part of His Majesty's dominions.

(Continued on Page 7.)

INDIA'S GOLD BIG AID TO BRITAIN.

Helped Her Meet Her Heavy Debts.

London, To-day.

During the past year, Indian hoarders have disbursed £60,000,000 in gold bullion, but the export is now slowing down. Still, however, it is about £3,500,000 monthly.

The effect of the thing is analyzed in an article in the Morning Post which points out that the year's exports represent three-quarters of the average annual world gold output of recent years.

Doubtless much of the gold has become sterilized elsewhere, preventing any substantial beneficial effect on world prices but the exportation of India metal has materially helped India weather the storm of depression and has been a veritable windfall to Britain, and incidentally largely responsible for the promptitude with which Britain was able to liquidate the French and American credits recently. — Reuter.

(Continued on Page 7.)

STOCK MARKETS ACTIVE.

British War Loan Rises 7/16.

London, To-day.

Stock markets were active yesterday, with British Government securities notably buoyant.

The War Loan assented, changed hands freely up to a new high level of 102.5/16, and closed 102.5/16, a rise of 7/16 since Wednesday. — British Wireless Service.

MR. WANG CHING-WEI MUST TAKE LONG VACATION.

III Health Forces Leader To Temporary Retirement.

Shanghai To-day.

It is learned from reliable sources that Mr. Wang Ching-wei has decided to proceed to France for a change at the end of the month. It is understood that the leftist leader has been advised by his doctors to take a complete rest for a period of three months, and that afterwards he should proceed somewhere for a change of climate.

Mr. Wang has decided to give up his political life for the time being. — Reuter.

SEX INTEREST CRITICISED IN SH'AI CINEMA

"Nauseating" Posters Condemned.

REPORT OF COMMISSION.

(From Our Own Correspondent)

Shanghai, To-day.

Sex interest is widely stressed in Shanghai cinemas, according to the report of the Film Censorship Commission, which stigmatizes street posters as "nauseating" and newspaper illustrations as "unworthy of the traditions of the press."

It recommends that the present International Board of Censors be replaced by a smaller Board of an official character, with executive powers and urges closer cooperation with the police, which have hitherto delegated undue authority to subordinate officers.

The report is accompanied by a memorandum from the Motion Picture Association of China contending that the Municipality of Shanghai is not empowered to impose legal censorship on films, inasmuch as the council does not censor dramatic plays and written publications.

The ship was then steaming about 50 miles south of Gap Rock, and the first man to be taken from the cabin where the officers were confined, was the skipper, Capt. G. Le Fevre. The pirates took him to the bridge where he was directed to turn the ship about. The Chief Officer, Mr. W. Anderson, was also brought to the bridge to assist in the navigation.

Heavy seas were running at the time, and the ship made slow progress on her return journey, and a circuitous route was chosen to prevent her being seen by other ships leaving Hong Kong. As an extra precaution the pirates forced members of the crew to paint the funnel of the ship black instead of yellow. The Chinese characters on the side of the ship were also painted over and some attempt was made to efface the name of the ship in English.

Always Under Guard.

The first order given to the captain was to proceed to Swatow. During the trip, the officers served the usual four-hour watch, being escorted to and from the bridge and engine-room by guards who were armed with revolvers. The two lady passengers were confined to their cabins.

Throughout Wednesday and Thursday, the ship was under the control of the pirates and finally anchored in Hie Che Chin Bay near Swatow, which is said to be the low base of the Bias Bay pirates.

Bringing Up Father.

Beautiful New Uncrushables

Dark Colours For Nightgowns.

New and beautiful velvets are appearing daily in the houses of the big textile creators; moreover, they seem to be growing more practical by the minute! You have been told about Blanchini's new uncrushable dull velvet, which, by the way, is uncrushable. The non-crush process is also being applied to Lyons types of velvet.

Artificial Silks.

Another triumph for the manufacturers is that they have made the synthetic silks "uncrushable." When these first appeared upon the world, no one could say they were pleasant—too shiny to look at and harsh to touch. It was once explained that it was this harshness which made the fabric so easily crushed—the creases were almost as cracks and very hard to press out particularly as it was impossible to use more than a slightly warm iron on them. Too hot an iron just made the fabric disappear—melt away rather than burn away. However, those days are past, and almost all the members of that large family of artificial silks are soft to handle and do not crush.

Ninon Squares.

Very large chiffon handkerchiefs, de rigueur, for the dance, are square and made in deep colours—blue, emerald green, brown and black. Among the new designs, printed patterns show very large white flowers.

About Sleeves.

Shoulders are still accentuated. In some afternoon ensembles the epauette is attached to an under-blouse of lace-ruffed georgette and stands up stiffly at the top of the sleeve. A little bell-shaped piece is attached at shoulder level on many coats.

Becoming Colours.

"I wondered the other evening, if, perhaps, white-haired ladies find it easier to choose becoming colours than do those with darker tresses. At least, at this party, white-haired women wore particularly beautiful gowns," writes a correspondent.

"Black was used—in moderation. A few patterned materials included much black. But more lovely was a frock of plain pink satin. Mauve had also been chosen with success, and one tall, white-haired lady wore

bright red—very successfully; her feather fan was also shaded from white to red."

Dark Nightgowns.

Nightgowns of voile and printed chiffon are interesting on account of their very dark colours. There is a black—and navy blue, one with the merest touches of red. It is tucked at the waist, and is not very full in the skirt. Over the shoulders are narrow straps.

Other dark nightgowns the finished with net hems. Dark parchment net makes an effective edging. One of these nightgowns has diagonal seams to give the impression that the bodice is on the slant, and these seams are piped with mauve organdie, to correspond to the flowers sprawling over the nigger brown chiffon.

Holding Its Own.

In the midst of many romantic elements, the Second Empire is trying to hold its own. It is impressed itself on small-brimmed hats that are worked into a point over the right eye, the brim describes a graceful curve as it rises over the hair and dips down to the neck. But the crinoline Empress has laid but a light hand on the millinery mode—the feathers she loved no longer wave; for when they are used they are laid in a fabric-like surface and made into a touque, or they are lacquered to look like metal or hair, or glued so that they can encircle a hat with the grace of a twisted leaf.

About Sleeves.

Shoulders are still accentuated. In some afternoon ensembles the epauette is attached to an under-blouse of lace-ruffed georgette and stands up stiffly at the top of the sleeve. A little bell-shaped piece is attached at shoulder level on many coats.

The puff-sleeve is dying fast. Instead, the fullness extends for about six inches above and below the elbow. The bishop sleeve is coming in again, and a balloon of fullness just above a tight cuff. Sleeves of coats have pointed elbows.

BALE OF ROYAL FURNISHINGS.

Bedroom Chairs At Sixpence.

A large crowd attended at Mar Lodge, Deeside, the Highland home of the late Princess Royal for an auction sale of surplus furniture. There were buyers in plenty, but the question of transport was a difficult one. Bedroom chairs went at sixpence to a shilling each, and beautiful couches and settees were "knocked down" at about fifteen shillings each, but the question was "How were they to be got home?"

The crowd consisted largely of holidaymakers. Many of them, no doubt, hoped to acquire small souvenirs of Royalty, but there was little of that description to be got. Dresden china goods fetched the best prices, but pictures went at ridiculously low figures. They were sold literally in stacks. One lot, including a Landseer and two beautiful views of Deeside in water colours, went for eight shillings. Cheaper still were several bedsteads, iron and brass, which were bought at from a shilling to half-a-crown each.

NEW STYLES FROM OLD

Another idea produced from long ago, designed by Adrian, is a cloth dress worn by Maureen O'Sullivan in her role in "Sky-scraper Souls." The top resembles a form-fitting basque, with buttons running up to the high neckline where a demure white collar is knotted close to the throat. A wide belt outlines the smallness of the waist, while a pleated peplum and epaulettes add the correct finishing touch.

The tiny little hats that are being talked about as something new really get their inspiration from the past. Karen Morley, in her part in Metro-Goldwyn-Mayer's "The Washington Masquerade" wears an exact replica of one from the days of our great grandmothers—a small affair that perches precariously atop her head, with upstanding ribbon decorations to give the right finish.

The coat accompanying this hat has a luxurious collar of sable, this trimming framing the face and hat in flattering manner. Of equal interest is the high waistline and the sleeves that flare out in a modified version of the matto-leg silhouette of long ago.

PAGE BOY COATS ARE SMART.

Flared Skirt Still Fashionable.

The flared skirt is still with us, but the seams are now at centre back and centre front, and either stitched down each side, or finished with small buttons from waist to hem.

Apples are also excellent with pork. They should be placed in the baking dish with the potatoes and tomatoes. Breslau make an excellent accompaniment. They are cut in halves and baked. Just before going to table, on each half there should be placed two small pats of butter mixed with parsley and lemon juice.

Stuffed Cabbage.

Take a well-shaped cabbage and removed the outer leaves. Remove from the top of the cabbage enough to make a hole the size of a small basin. Stuff the aperture with fresh mince moistened with brown gravy; season and carefully close the opening with a leaf. Place in a saucepan with stock to prevent sticking and cook till tender. Thicken the stock and pour over the cabbage on a hot dish.

Liver En Casserole.

Well wash a calf's liver and cut it in neat slices; lay them on a greased baking tin; pepper them, then shred over finely sliced onion, and place a layer of bacon on each slice of liver (the liver should be cut large enough for one portion). Pour a little stock or water round and bake for 4½ of an hour. Place the liver on a dish, add some Worcester sauce and a little ketchup to the stock, boil up then pour round the stock, boil up then pour round the liver and serve very hot.

Giblet Soup.

Carefully clean two sets of chicken giblets (heart, gizzard, liver, wings and neck) and cut in small pieces. Slice up 2 onions, a carrot, a leek, a stick of celery. Melt 1½ ounces of butter in the saucepan and fry the giblets and onions a nice brown, stir in an ounce of flour, cook gently for three minutes, and 3 pints of stock, remainder of vegetables, boil and then simmer for 40 minutes. Add cooked rice when done remove giblets, add some sherry and serve with chopped parsley.

THE GREATEST & MOST AMAZING SPECTACLE FILMED IN JUNGLE!

NOT A SINGLE
HOLLYWOOD-STAGED
THRILL IN
THIS PICTURE

DIANA WYNWARD PICKED FOR "CAVALCADE"

"CONGORILLA" A GENUINE JUNGLE PICTURE.

"Passionate Plumber" Durante Comedy.

Lots of laughs in this one. You faded when Van Dyke reached Hollywood, but the Johnsons learnt a lesson, and this time ONLY THE authentic footage is shown, and believe me, everyone must see it. Buster Keaton and Jimmy Durante's new offering, "The Passionate Plumber," Irene Purcell is the girl who needs a cardboard lover as protection against the fatal attraction of Gilbert Roland. She hires the plumber, who, sadly, but wisely, falls in love. To add to the heart interest, we have Jimmy chasing Polly Moran. Certainly amusing, if a trifle rough, and at times verging on the vulgar. The whole cast is well suited, and done in the usual creditable manner expected from the M.G.M. Studio. (Queen's).

* * *

Spanish Films.

The proprietor of the Theatres in Macho sees huge success in Spanish films. The rapid-fire Spanish will be readily understood by the Portuguese folk. I remember liking Jose Mojica in "One Mad Kiss," but he has put weight since then. His voice is as lovely as ever. Conchita Montenegro, not pretty, but helping along in the same old comic-opera story of Prince who loves the cabaret maiden. The German films have proved a success here, and there is no doubt, there MAY be a future for those of other languages. I would like to see some of the really worth-while French production. Personally, I can't rave over "Paid to Love," but again others do—so that's that. See it for yourself. (King's).

* * *

Oriental's Attractions.

"Don't Bet on Women," with Jeanette MacDonald, (grand comedienne) Edmund Lowe, Roland Young (HOW that man can deliver lines) and Una Merkel, who is amusing in this trifle. Worth seeing twice. "Heaven on Earth," too depressing, with Lew Ayres, Anita Louise, (with possibilities) and Elizabeth Patterson. Story of Shanty-town on the banks of the Mississippi. At least, when one sees how the "Poor White Trash" exist, one is appreciative of the good things that come our way here. After this, we have Jack Oakie in "June Moon." Due at the Oriental.

* * *

Radio Patrol.

"Radio Patrol" with Robert Armstrong, Russell Hopton, (who is a hero for the first time), and a welcome come-back of Lila Lee, who has been over a year in a Sanitarium in Arizona. Strong melodrama which exploits the nobility of the policemen who receive their orders from Headquarters by Radio. More later. (Central).

* * *

A.B.P. "The Love Race" written by Stanley Lupino who is starred in it, with direction by Lupino Lane. Cast includes, Jack Hobbs Dorothy Boyd, and Dorothy Bartlam—new names here. The story is about two rival motor firms, with love as the prize. There is a catch song, "Just Dance." The Daily Mail assures us that it is boisterous, slapstick comedy. I leave it at that. (Queen's).

* * *

Queen's Attractions.

Due very shortly, my adored Joan Crawford in "Letty Lynton." The girl has surprised her most severe critics in this, and justifies the faith of the M.G.M. Executives. Then, comes Norma Shearer in the wizard O'Neill play—"Strange Interlude." Yes—Mr. Clark Gable, who is at least the idol of the flappers in the States, if nowhere else, is the hero. (Queen's).

* * *

"Congorilla."

"Congorilla" is True Blue. The British Press are unanimous in their praise. I know, after seeing "Tarzan," and its absurdly hired animals, that one is a little sceptical of films taken in darkest Africa, but Mr. and Mrs. Martin Johnson, the American photographers and explorers, have given us a picture that is different. Alone worth the visit are the "surviving" customs of the pygmies. Hundreds of feet of film taken for "Trader Horn" were all the rocks. Johnny Weissmuller

COLMAN TO RETURN TO THE STAGE.

Young Given Offers For Film Work.

Ronald Colman plans to return to the stage after the production of "Cynara" is finished.

Frederick Lonsdale is writing a play for him. The date of the return depends on Samuel Goldwyn, who has several film productions ready for Colman.

Roland Young, who has returned to the United States after playing in England in "Wedding Rehearsal," has had several tempting film offers, but he has decided to a stage play before returning to the studios.

IDEAL CASTING.

Decision to give Anna Harding the role opposite Leslie Howard in "Animal Kingdom" brings the new cast of this picture into the memorable listings of 1932. With Anna Harding as the wife, Karen Morley as the other girl, Ilka Chase playing the rollicking part she did so well in the New York presentation and William Gargan of the original cast as the butler, this should be one of the best cinemas of the coming year. The new producers' agreement to exchange players makes for ideal casting—and ideal casting makes for a good movie.

(Continued from previous column.)

"Tarzan" fame is being divorced by his wife, Bobbie Arnst, a famous dancer. She blames his sudden success for the failure. When he was only an advertisement for a certain bathing-suit, and she had the big name, they were happy—and now?

How the newspapers have revelled in this Paul Bern suicide. It is the biggest sensation Hollywood has occasionally. Plenty of action with stolen emeralds, strange doings in the dark, screams, shots and kidnapping. Perhaps, if you think known. John Gilbert states that Lionel's great character actor, you this is the second time Bern has may like him as the grim detective, attempted suicide, and he often discusses the probability of it from a philosophic point of view. Conrad Nagel delivered the farewell address, before the cremation. Bern was one of the most loved and respected men in the film industry, and his thoughtfulness of people in trouble a byword.

The new British girl—Diana Wynward, who recently appeared on Broadway in "The Devil Passes," and was signed by M.G.M., has been chosen from dozens of applicants for the part of Jane in the Fox production of Noel Coward's "Cavalcade." Clive Brook is the leading man. Ursula Jeans, Frank Laughton, Una O'Connor, Irene Browne and Marie Tottenham will go from London to appear in their original parts. Beryl Mercer, Herbert Mundin, Margaret Lindsay and four British children are being brought from New York. Director Frank Lloyd began work on September 26.

I am delighted to see the Hearst papers give headlines to the magnificent performances turned in by Joan Crawford, Walter Huston and Bill Gargan in Maughan's "Rain." Only the highest praise for this truly great actress for her portrayal of Sadie Thompson, even though she follows Jean Eagles and Gloria Swanson, who were both grand in their respective versions. Richard Barthelmess, one of the most travelled of the film stars, has just returned from Russia, and practically all over the Continent, accompanied by his wife and two children. Now Everett Horton is preparing for the same trip.

Mr. and Mrs. Douglas Fairbanks, Junr., had a marvellous social success in London, and were the guests of Noel Coward.

Corinne Griffith, who hobnobbed with the highest in the land, has also returned to Hollywood, with her husband, Oliver Morosco, who is to be a leading executive at the Fox Studio.

Lupe Velez will play with Wheeler and Woolsey in a Radio comedy of jungle life.

Gavin Gordon, returned from London to play at Columbia with Jack Holt.

Boris Karloff has been loaned to M.G.M. to enact the principal part in "The Mask of Fu Manchu."

As Marie Dressler is only allowed to work three hours a day, owing to ill health, Zasu Pitts, who many claim to be the funniest woman in pictures, is hoping for some great chances with M.G.M.

Perhaps this news will thrill you, but it leaves me like a trifle, for I am losing my admiration for Clark Gable. She has refused to sign for \$12,500 per week for forty weeks a year.

Constance Bennett is now at work on the new Gloria Swanson directed "Rock-a-Bye Baby." Latest photos show a beautiful new Constance. She has recently lost 30 pounds in

BUSY SCHEDULE ON PARAMOUNT LOT.

Big Pictures Nearing Completion.

Paramount is rushing along with eight productions on the stages.

"Blonde Venus," the Dietrich-von Sternberg effort which was scheduled to end some weeks ago, is still in the making. "The Big Broadcast," "A Farewell to Arms," "The Phantom President," "The Night of June 18th," "Sign of the Cross," "The Honest Finder" and "Madison Square Garden" are all in work.

Paramount announced the purchase of "The Shining Shark," the newest Vicki Baum piece, for the screen. Although no star has been announced, it will probably be a vehicle for Sari Maritza. Six writers are at work trying to find a story for Stuart Erwin and Alison Skipworth, with no one having a very definite idea of what the studio wants.

Expecting one of the more important pictures of the year to come out of the effort, the studio combined the talents of Zoe Atkins and Harry Harvey to get a story for "Madame Butterfly." The film is scheduled for Sylvia Sidney and Cary Grant and several thousand feet of atmospheric scenes for the process shots have been taken. In addition, will be assisted in his share of the programme by Al Baldwin. The new and improved dance band at the Little Club rapidly is gaining favour and is now on the air every night.

The Presidential Election.

Although more than four weeks have still to pass before the elections in the United States for the Electoral College are held—a contest which, in fact, although not in constitutional theory, determines who the incoming President is to be—the campaign is in full train. Mr. Roosevelt and his followers draw zoological comparisons between "Hoover" and an elephant entangled in a morass of unredeemable promises. Mr. Hoover points proudly to his scheme which will lift America from her depression. To the outsider the difference between the Republican and the Democratic policies is rather nebulous. This phenomenon, indeed, was noted by Bryce fifty years ago. What are their principles, their distinctive tenets in regard to the major issues affecting national life? This, says Bryce, is a question which a European is always asking intelligent Republicans and Democrats. "He is always asking 'because he never gets an answer.' At last the truth dawns on him. They have separate organisations, but the party names have no real significance. Neither party has any distinctive principles or programmes. Bryce might qualify this estimate nowadays when the war and high protection have introduced elements of complication. But in one particular at least the approximation this year is closer than it was four years ago. In 1928 Mr. Hoover stood four-square for prohibition and Mr. Al. Smith's sympathies were "wet." In 1932 the gap between the two candidates has appreciably narrowed. The American "Literary Digest," which gives a synopsis of representative opinions throughout the country, is usually remarkably accurate in its estimates and predictions, and it crystallises the general view in the statement that the Republicans hope to win with the "dry" and the Democrats hope to win with the "wet." The indications suggested that the "dry" would support Mr. Hoover, as happened in 1928. With the current symposium was being prepared, Mr. Roosevelt's attitude on the subject of prohibition had not been clearly defined. The "dry" claimed that the Republican platform did not commit the party to any concession to the "wets." Whatever he said since then he has declared himself unequivocally. He ad-

mitted, having led to corruption and "spread disrespect, not only for this law, but for all laws." He cannot consent to a continuation of this regime—which has made many other reluctant converts—but is firmly opposed to the return of the "saloon," which, he believes, would be the inevitable sequel to the acceptance of the Democrat plank, a modification of the law so as to allow the sale of wine and beer. His plan is to restore liquor control to the individual States. As this is an alternative proposal of the Democrats, there is little to choose between the two platforms. Meanwhile, from the South has emerged an aspirant who will not tolerate compromise. This is Mr. W. D. Upshaw, the "Georgia Cyclone," who has announced that he will run as an out-and-out "dry," although he will stand down in favour of a stronger candidate. It is not anticipated that the cyclone will do much damage to the other camps. But there are constitutional difficulties in the way of repealing the famous 18th Amendment which, at the moment, neither Republicans nor Democrats care to stress—if the experience of recent elections in other countries can be taken as a criterion, Mr. Hoover is not unlikely to have lost ground since his success in 1928. When he inherited the mantle of Mr. Coolidge America was enjoying a boom. "We in America," he said "a nation that is spending ninety billions a year, are nearer to the final triumph over poverty than ever before in the history of any land." Since then America has felt the chill wind of adversity, and the public is apt to demand a scapegoat. In the congressional elections in 1930, the Republicans sustained a severe reverse, losing their majority in the House of Representatives and barely holding their own in the Senate. Moreover, Mr. Roosevelt has an advantage which Mr. Al. Smith did not possess. Mr. Smith is a new man, a member of a family whose roots are not planted deep in American soil. Americans traditionally prefer for their "first citizen" one sprung from a stock which has been associated with America for many generations. This credential, Mr. Roosevelt commands. Europe watches the election with more than ordinary interest. Until it is decided the Economic Conference must wait, as must any discussion of debts. The Democrats lean towards a reduction of tariffs, but are adamant on the subject of war debts. Mr. Hoover is supposed to be willing to consider a revision of the latter, but is disinclined to interfere with tariffs. Hence the result of the elections, whatever they may be, will be of great interest in Europe.

There are no moving parts, the machine ^{never} gets out of order. It requires no running water, being air-cooled. A tiny gas flame does the work.

Visit our showrooms and see and ask for operation or ask for our representative to call to get further details and to discuss costs.

CHINESE BANDITS' BRUTAL MURDER.

British Woman Shot In Cold Blood.

CHILDREN SEE HORROR.

Peking, Yesterday. Mrs. C. T. Woodruff, wife of the Accountant of the British-American Tobacco Company at Harbin, has been killed by Chinese bandits.

The outrage occurred yesterday morning near the Woodruff home. Mrs. Woodruff was taking her two children to school in a motor when three bandits waylaid them.

It is supposed that they intended to abduct Mrs. Woodruff and hold her to ransom, in the same way as Mrs. Pawley and Mr. Charles Corkran were abducted at Newchwang. It is said that Mrs. Woodruff resisted them, with the result that they shot her dead.

Mrs. Woodruff has a Russian chauffeur, and in the shooting he was wounded. The children escaped unscathed.

The bandits did not all get away. One was killed, and another arrested.

Mrs. Woodruff was a native of Bristol, as is her husband. They have been stationed at Harbin for the past eighteen months.—Reuter.

Pursuers Rescued.

Harbin, Yesterday. Four bandits attacked and murdered Mrs. Woodruff, wife of the B.A.T. Chief Accountant.

They attempted to kidnap her and her three children.

Two Russians pursued the bandits, who fired and seriously wounding both of them.

Chinese policemen chased the bandits and fired upon them killing two. The others escaped.

The children were rescued.

Reuter.

England Shocked.

London, Yesterday. The country has been shocked by the news of the murder of Mrs. Woodruff.

The poignant circumstances of the outrage are related in the newspapers in heavy type with banner headlines.

The first intimation of the murder of Mrs. Woodruff reached her parents when they were listening to the wireless news bulletin at a relation's home at Trowbridge, where they were visiting.

Shortly after her son arrived by car from Bristol with the news which had been cabled by the Imperial Tobacco Company.—Reuter.

News In Brief.

A solemn Requiem Mass took place at the Cathedral of the Immaculate Conception, today at 7.30 a.m., for the late Cardinal Van Rossum. The deceased was a man of great intelligence, and in 1918 was made Cardinal Prefect of the Propaganda Fide.

A \$25 fine or a month's hard labour was the sentence given by Mr. Schofield at the Central Magistrate this morning to Leung Chik, who was found in Aberdeen with 380 catties of wood in his possession.

Chen Po-man, 29, a student of King's College, was taken to the Government Civil Hospital yesterday suffering from injuries through an alleged assault on him by another student outside the College. He was not seriously hurt.

A Portuguese youth, Ernest Gómez, a student at La Salle College, was beaten up by Leung Chik, who was found in Aberdeen with 380 catties of wood in his possession.

The bulk of the milk before the war was delivered by the producer, either direct to the retailer's float or to distribution in a loose condition to the consumer, or by rail to large wholesalers in the towns and cities.

The margin between the wholesale and retail price varied rather considerably, but the average for the whole country would be approximately 15 per cent. to 17½ per cent.

The present distribution of milk is much more elaborate and therefore much more expensive. In many cases the old 1918 method of distribution has been superseded by a system whereby the bulk of the milk is, after pasteurisation or sterilisation, delivered to the consumer in bottles, passing in the process from the farmer to the transport proprietor who collects the churns, then the platforms at the farm, and thence either to the retailer or directly to the dairy for sterilisation and bottling.

This has automatically increased the margin between the wholesale

Revolution In Our Spending Habits

Demand For More "Service"
And Less Good

FUNDAMENTAL EFFECTS

In England we have reduced the Bank rate to point below the level of immediate pre-war days. in the hope that cheap money would stimulate consumption and so raise prices. The only result so far is an increased demand for Government securities and an ever-falling price level," writes Felix J. Blackmore, Past President, National Chamber of Trade in the Daily Telegraph.

Surely there must be some reason for this failure of the adjustment of the Bank rate to regulate exchange now as in the past, and in the investigations I have recently conducted I think I have found, at any rate, a partial explanation.

As there is a difference between the wholesale and retail price of flour was in the vicinity of 12½ per cent. What the cost depended upon the efficiency or otherwise of the housewife, but in the great majority of cases the house-baking was well and economically performed.

Per cent.
(Pre-war figures 100.)
Retail price level, May, 1932 143.0
Wholesale price level, May 31, 1932 93.9
Difference 49.1
Food, Alone. Per cent.
Retail price level, May, 1932 125.0
Wholesale price level, May 31, 1932 105.2
Difference 19.8

I have no figures for "All Commodities" before the war, but for food, the difference between wholesale and retail price was approximately 13.2 per cent. It will be observed that the wholesale price level on May 1 last was actually 6.1 per cent. below 1914, and yet the retail price level was 48 per cent. above 1914, making a difference between the wholesale and retail price of no less a percentage than 49.1. What is the explanation of this? I believe it is attributable, in a measure, to the changed habits and demands of the people. I express no opinion as to whether these changed habits and demands are good or bad, or whether they contribute to the general welfare of the people or not. All I am concerned with is to state the facts as I find them.

To secure a correct perspective of the problem, a visit to many artisans' homes has been found necessary, and this demanded the exercise of extreme tact in order to procure some of the intimate details necessary.

Social Life Changes. One cannot go into the highways and byways for this purpose without being impressed by the changed conditions of things in the home. Social life in this country appears to be dynamic and never static, and even in the country villages I found a change that was really surprising when compared with conditions before the war.

In addition to changed qualities and kinds of commodities, I found that there was a greatly increased demand for what Ricardo would have described as non-productive labour in the shape of service. Let us take a few of the essential commodities.

The bulk of the milk before the war was delivered by the producer, either direct to the retailer's float or to distribution in a loose condition to the consumer, or by rail to large wholesalers in the towns and cities. The margin between the wholesale and retail price varied rather considerably, but the average for the whole country would be approximately 15 per cent. to 17½ per cent.

The present distribution of milk is much more elaborate and therefore much more expensive. In many cases the old 1918 method of distribution has been superseded by a system whereby the bulk of the milk is, after pasteurisation or sterilisation, delivered to the consumer in bottles, passing in the process from the farmer to the transport proprietor who collects the churns, then the platforms at the farm, and thence either to the retailer or directly to the dairy for sterilisation and bottling.

An absorbing lecture on "Biology Education" was delivered before the Education Society of the Hong Kong University by Dr. D. A. C. Herklots, Reader in Biology at the University, in the course of which he outlined the advantages to be obtained by a study of biology.

The present distribution of milk is much more elaborate and therefore much more expensive. In many cases the old 1918 method of distribution has been superseded by a system whereby the bulk of the milk is, after pasteurisation or sterilisation, delivered to the consumer in bottles, passing in the process from the farmer to the transport proprietor who collects the churns, then the platforms at the farm, and thence either to the retailer or directly to the dairy for sterilisation and bottling.

This has automatically increased the margin between the wholesale

(Continued on Page 7)

NEW LIQUOR DUTY ANNOUNCED.

Change Contained In Gazette.

New liquor duties were gazetted to-day by the Hong Kong Government.

It is resolved that the Table to the Liquor Duties Resolution of June 30, 1932, be amended and that on and after the coming into operation of this Resolution Part I of the Table published in the said notification be rescinded and the following Part substituted:

European Type Liquor

Per gallon
On all liquors, and on all champagnes and other sparkling wines \$10.00
On all brandy consigned from and grown or produced in the British Empire 3.00
On all other brandy and on gin, whisky and other spirituous liquors 6.00
On all port, sherry and madeira 4.00
On all other still wines 3.00
On beer, porter, cider, perry and stout 0.60
On all intoxicating liquors above the strength of 18 degrees under proof, for every degree above such strength in addition to the appropriate duty as above 0.70

LONDON PARLEY CLEARS WAY TO ARMS CONCLAVE.

(Continued from Page 1.)

Meet Ministers.

The Anglo-French conversations on disarmament problems occupied several hours at No. 10 Downing Street yesterday and will be resumed to-day. Premier MacDonald and Premier Herricot spent an hour together along yesterday morning, after which they were joined by Sir John Simon and the French Ambassador, M. De Fleurieu. An interim communiqué issued afterwards described the conversations as informal and related to "difficulties that have arisen as regards further progress in disarmament."

The French Premier, together with M. De Fleurieu and Messrs. Alphand and Ruy, who had accompanied him from Paris, remained to luncheon with Mr. MacDonald and there met Mr. Stanley Baldwin, Lord Hallam and other Ministers and officials.

Discussion Resumed.

Conversations were resumed later in afternoon and lasted two hours. It was announced that these had been marked by a very friendly spirit and would be continued at ten o'clock to-morrow, after which a full communiqué would be issued.

M. Herricot intends to leave London to-morrow afternoon at 4 o'clock. To-night Sir John Simon gave a dinner party at Claridges in honour of the French Premier, Mr. MacDonald being among those present.

It is understood nothing occurred to-day to affect the proposal put forward by the British Government and accepted in principle by France, Germany and Italy, that a Four Power Conference should be held in the near future. The purpose of to-day's meeting was in no sense to negotiate, but merely to allow a frank exchange of ideas as to methods of removing obstacles which have impeded the general disarmament negotiations. There is no desire or intention to do the work which should properly be done by the League of Nations, of which the Disarmament Conference is an undertaking. The purpose of the Premiers is rather to assist the Disarmament Conference to go on functioning.

To-day's conversations were guided solely by that purpose and the informal exchange of views gave mutual satisfaction. More definite information in regard to the aspects of the disarmament problem touched upon is promised—British Wireless Service.

BOY SENTENCED TO SEVERE WHIPPING.

Refuse To Give Name Of Accomplice.

A 14-year-old boy, Leung Chau, was sentenced to six strokes of the birch by Mr. Wynne-Jones at the Central Magistracy this morning for having \$881 [P. 114] left ticketed in his possession at the time of his arrest.

The lad stated that he had been paid to carry them by a man, but refused to divulge the other's identity.

PREFERENCES APPROVED BY H.K. ORDINANCE

(Continued from Page 1.)

"Empire product" in the case of motor vehicle means a vehicle which is substantially manufactured within the British Empire.

"Motor Vehicle" includes motor car, motor lorry, motor omnibus, motor truck, motor bicycle and motor tricycle.

W. T. Southorn, Officer Administering the Government.

"(2) No vehicle shall be deemed to be substantially manufactured within the British Empire unless,

"The Ottawa Conference has made it necessary for all parts of the Empire to support the conclusions there made as far as circumstances permit. The conditions of Hong Kong give few openings for reciprocating in the way of preference, but motor vehicles provide one such opening of which it is proposed to take advantage. A general import duty is possible but it is considered that such a duty might interfere with the entrepot trade in motor vehicles and it has therefore been decided to recommend that the principle of preference should apply only to motor vehicles registered for use in the Colony and to add 20 per cent. of the c.i.f. value to the licence fee of all foreign made motor vehicles on first registration."

C. G. Alabaster, Attorney General.

"(2) Such special licence fee shall

REvolution IN OUR SPENDING HABITS.

(Continued from Page 6.)

It should be admitted here that a proportion was also being invested in Post Office and Savings Certificates. It will readily be appreciated that the advent of the internal combustion engine has meant many artificial families that an increased number of week-ends each year have been spent in the un-economic environment of the boarding house, rather than in the economic precincts of their own home.

Personally, I am attaching no blame to the people for this method of spending. It may under certain conditions even be commendable, but must state the facts as I find them, in order to indicate the new reorientation of their habits and desires generated by what some people describe as progress and development.

This habit of spending more and more on luxuries than on necessities may be one of the causes of the low price level which is the present world problem.

YOUTHFUL THIEF TO BE BIRCHED.

Sleeping Passengers Are Robbed.

Ten strokes of the birch was the sentence given to Kwok Ping, aged 16, who was found guilty by Mr. Wynne-Jones at the Central Court this morning of stealing one counterpane, one pair of shoes and nine pieces of clothing from two passengers of the s.s. Kwong Tung.

When the boat docks early in the morning, passengers are wont to sleep until daylight. At this time thieves sometimes creep aboard and steal whatever they can lay their hands upon.

CHINESE ENCOUNTERS FATEFUL NUMBER.

Carried Opium On Unlucky Day.

The number "13" proved the nemesis of Li Hi, who was brought before Mr. Schofield at the Central Magistracy this morning, charged with having in his possession 39 tuels of prepared opium.

He had concealed 13 packets of the narcotic around his thighs, fastening it there with rubber bands. He was arrested on October 13. The opium was valued at \$468.

The defendant stated that he was a cook on board the s.s. Yuet On and not a resident of Hong Kong.

His Worship fined the defendant \$4,000 or 11 months' imprisonment.

HIGHLANDERS LEAVE FOR SHANGAI.

Small Detachment on "Caradoc."

The advance party of the Argyll and Sutherland Highlanders, consisting of 20 men, under Lieut. R. M. T. Baker-Carr, left for Shanghai aboard H.M.S. Caradoc at 8.30 this morning.

The remainder of the Highlanders, under the command of Lieut.-Col. N. C. Bennett, O.B.E., M.C., are leaving on H.M. transport Neutralia for the North on November 10.

The Colonel-in-Chief of the A.

and S.H. is H.H. The Princess Louise, and the Colonel is Major-General Sir Alexander Wilson, K.C.B.

The Royal Engineers will be

joined by the Royal Artillery.

Only by the splendid work of the

Hong Kong Fire Brigade was

a block of four storey buildings saved

from burning completely.

One which "broke out" in New

market Street last night.

The fire, occurring shortly

after eight o'clock and calls were answered

by both the fire brigade and police.

There was no loss of life.

DE LA SALA FREE ON ONE CHARGE.

Hearing Of Second Proceeding.

Mr. Wynne-Jones, at the Central Magistracy yesterday afternoon dismissed charges of criminal intimidation and threatening to assault, brought against Pastor De La Sala, by Major Cassel, of the Critie.

Whether La Sala pulled a automatic pistol or a black leather key case from his pocket when he was alleged to have threatened to "do in" the Major, His Honour could not determine. Major Cassel admitted that he was not frightened at La Sala's alleged threat and the accused had merely stated that he would "do in" anyone who interfered with him at some indefinite time.

The Magistrate could neither find evidence of criminal intimidation nor assault, according to the strict points of the law, and therefore discharged the accused on this count.

Evidence was taken from Mr. Raymond O'Shea, who has accused La Sala of threatening him with a knife with intent to alarm him. Hearing will be resumed on Saturday morning.

EMPIRE RATIFIES NEW TARIFFS.

(Continued from Page 1.)

Britain's Benefits.

London, Yesterday.

On the basis of the latest trade returns it is estimated that Britain will benefit under the new Ottawa Conference schedules from preference on over \$50,000,000 worth of foreign imports into the Dominions.

The view of all commentators except the Free Traders is that the schedules reveal more substantial concessions and cover a wider range of exports than was generally anticipated.

The Free Trade press bitterly assails the agreements on the ground that they will seriously impede eventual world agreements for reduction of tariffs.

On the contrary, the Conservative newspapers emphasise that the Ottawa Conference reduced tariffs and did not raise them.

An interesting point of the agreements is the scheme to restrict the importation of foreign meat into Britain, in order to raise wholesale prices.

The Times argues that this is the only way to save the United Kingdom and Dominions "growers" from ruin. It will also benefit foreign "growers" in the Argentine and elsewhere.—Reuter.

Hong Kong's Part.

The following communiqué was issued by the Colonial Secretariat last night:

"The Order under the Public Revenue Protection Ordinance promulgated in the Gazette Extraordinary of this evening and the legislation which it foreshadows represent the contribution asked of Hong Kong towards the common effort planned at Ottawa and now ripe for execution to promote British trade by a system of reciprocal preference embracing all the Dominions and Dependencies.

Hong Kong's contribution must necessarily be small because it is of paramount importance both to the Colony and to British trade that the movement of goods into, within and out of the port shall be subjected to as few restrictions as possible and this principle is observed even in the new taxation imposed on motor vehicles, which must perform come under Government notice as soon as they are taken into use within the Colony and can therefore be allowed entry, storage and re-exportation without the restriction of bonding.

The variation in the duty on brandy does not of course impose any fresh restrictions and in its present form of a direct reduction for Empire produce is a relief rather than a burden.

"But small as Hong Kong's contribution is, it will be in the words of the Secretary of State's telegram of August 24, 1932, 'not only a reciprocal return for preferences received and offered, but also an earnest of our common desire to secure the fullest measure of Empire trade.'

The Gazette Extraordinary has not yet been published. It is understood it will be issued to-day.

These changes will be introduced to-day.

3 Clubs To Defend Unbeaten Records To-Morrow

Aston Villa to Withstand Sheffield Challenge in F.A. League

ASTON Villa, who have yet to be defeated this season, are entertaining Sheffield United at Villa Park to-morrow, and one of the best games of the day is expected to be the outcome. The United trounced the Cup holders at Bramall Lane on Saturday and are at present at the peak of their form. The Birmingham team, however, will zealously guard their unbeaten record, and it is generally thought that the Villa will emerge the victors.

Brentford, the proud Third Division club with an undefeated record, are entertaining another metropolis side in Clapton Orient. The visitors defeated Coventry City in their home match on Saturday, but Brentford are again favourites.

The Hearts, who have shown amazing improvement this season, are at home to Motherwell and a battle royal is expected. Though Motherwell, last year's champions, are undefeated, they will face a stiff hurdle to-morrow and it is quite on the cards that the Hearts will spring a surprise. Last week they beat East Stirlingshire, while Motherwell had an overwhelming triumph over Queen's Park.

Birmingham will be the visitors to the Throplow enclosure in the biggest "derby" of the day and a draw seems the likeliest result. The other "derby" game is that between Bristol City and Bristol Rovers, and judging on present form the City's ground advantage should decide the issue.

CHAMPIONS AT DERBY.

Arsenal, after their home draw against Derby last Saturday, are visiting Blackburn Rovers and are expected to make the trip back to London with at least one point. Everton, the League champions, are visiting Derby where they will encounter stiffer opposition than Blackpool offered on Saturday. Newcastle, the Cup-holders, are at home to the Wolves, and should be able to check their two reverses which were inflicted by Huddersfield and the United last Saturday.

Cardiff are likely to find the Palace team in good fettle after their defeat on Saturday and will be hard pressed to save a point. Swanssea are at home to Millwall and should be able to register their fifth win of the season.

Lincoln City, champions of the Northern section last season, will meet Fulham, the Southern leaders, at the Craven Cottage ground and the newcomers to the Second Division should provide the most closely contested game of the day with the odds in favour of Lincoln.

The following is to-morrow's fixture card with last year's results in brackets and the League tables to date:

ENGLISH LEAGUE.

First Division.

Aston Villa (5) v. Sheffield U. (0)

ROWING SEASON OPENS UNDER PERFECT WEATHER CONDITIONS

V.R.C. "FOURS" OUT YESTERDAY

FOUR CREWS COMMENCE THEIR TRAINING

SIX BOATS ENTERED FOR KOWLOON BAY CONTEST ON NOVEMBER 13

NOTHING further has been arranged regarding the prospective Inter-sport between Hong Kong and Manila, but there is still every possibility of an encounter materialising. The Manila representative was the one to make the suggestion, and this being the case, Hong Kong have only to sit back and await the turn of events. Manila have several first-class men and their combined team is stronger this year than in former seasons. It would not be an excellent pointer to the Shanghai game.

* * *

Dr. J. A. R. Selby is hoping that the Manila team will be able to visit Hong Kong during the Christmas festivities when he is running the Club Seven-A-Side Tournament. A team from Manila in the tournament would give a great impetus to the games. Dr. Selby hopes to stage the semi-finals and the final of the Club Sevens on Boxing Day, having played off the preliminary rounds on the previous Wednesday. The Club will not have matters their own way with the Navy fielding stronger backs than they have done in the last two years.

* * *

THE Navy will be without Lt. Comdr. Crick, who so ably led them to victory last year, and Lt. Comdr. Brodin and Lt. Piley, two other forwards of a high standard, but they will be greatly strengthened at three-quarter. Last year the heavy Navy pack carried all before it in the Triangular Tournament, and the backs, who were led admirably by Lt. Ryder, were presented with golden opportunities for scoring. This year, however, the Navy will not be fielding such formidable eight. Crick's inspiration will prove a sad loss. They have an exceptionally good scrum-half, who will be making his first appearance in the Colony, but his identity has been zealously guarded up to date. He is, however, rumoured to be in the same class as "Jake" Selby.

* * *

THERE will be few changes in the composition of the Army side. The Army three-quarter line will probably be Lt. Galleley, Lt. Hamilton, Lt. Richardson and Lt. Martin. The Army, however, will not be as strong as either the Club or the Navy for they will be seriously handicapped by the departure of the Argylls. Lt. Keith-Murray and Lt. Grayham were two players of exceptional qualities and their absence will be sorely missed. The arrival of the Lincolns will not help matters much, as the battalion is only interested in soccer. Lt. Young, a product of Haileybury College, will, however, prove a useful substitute for Grayham, and Keith-Murray's place on the wing will be taken by Martin.

* * *

THE Club practice on Wednesday could hardly have given the selectors much aid in their task of selecting their teams for the season. The situation at forward has been considerably improved, and it will be surprising if the Club do not field the best eight this season. Last year the Club possessed the best backs, but their weakness at forward was responsible for all their defeats. A. P. Hall-Thomson, J. Dalziel, J. C. Millar and I. H. Bradford will, however, greatly strengthen the Club. In addition to these four the Club will again be able to call upon D. McLellan, Dr. J. H. McElroy, W. E. Peers and F. R. Birch, all of whom were members of last year's pack.

* * *

THE three-quarter problem is the most difficult. G. P. Lammer is the only outstanding wing three-quarter at the moment, with R. H. D. Wade, and possibly R. O. F. King contending for the other position. The full back position is another which may cause grave concern. R. Reeve will not be available until after the rowing season concludes next month, and J. P. Whitham is undecided whether he will play again this season. The other possible players for this position are S. J. H. Fox and W. R. B. Rigg, though L. G. Robertson may be given the position after his display in Wednesday's trial. Should Robertson play at full back, A. F. Jenkins and R. H. Griffiths will be the centre three-quarters with Selby working the scrum with M. W. Turner as his partner.

* * *

THE form displayed by Millar in his first game in the Colony was most impressive. He was always up on the ball and his dribbling powers were quite as good as those of Dalziel. What particularly impressed me by his play was his efforts to start short-passing movements among the forwards. He scored a good try as the result of his efforts. Dalziel was not so much in the limelight as one might have expected, but from the little one saw of him he can be considered as a deadly tackler and a very

(Continued in next Column).

Rugby Notes

By Scrum Half

CAMPBELL'S WINS COVERS QUARTER MILE IN 6 MINS. 11 SECS.

FULL PROGRAMME FOR THE Y.M.C.A. AQUATIC GALA.

New Tientsin Flash.

A large crowd is expected to be present at the Y.M.C.A. bath tomorrow night, when the final swimming gala of the season will be staged, commencing at 9 p.m. sharp.

In the first event on the programme, the 50 yards Handicap Aggregate Cup Final, A. G. Donn, A. Eastbrook and W. Stoker are all in good positions, in the aggregate points to date, and a keen race should be provided.

Fowler and Schroeder will have a hard fight in the 100 Yards Breast Stroke Championship, but the most interesting event on the programme will be the 200 Yards Championship, in which A. G. Donn, B. Rasmussen, of Canton, W. T. Campbell, and J. Lange, a newcomer from Tientsin, who is considered a hot favourite, will face the starter.

The 440 yards championship was decided on Wednesday evening, Campbell winning the event in the time of 6 minutes, 11 seconds. Lange was a close second, being 8 yards behind, with Schroeder third.

Owing to indisposition, Eric Railton, who with Campbell, had entered the 880 Yards Championship, was unable to swim last night, and Campbell swam the distance by himself to clock 12 mins. 53 secs. Campbell only covered the distance in order to complete the Y.M.C.A. records for the 1932 season.

The full programme for the gala on Saturday is as follows:

50 Yards handicap aggregate cup final.

100 Yards breast stroke championship.

220 Yards championship.

Mixed Relay race.

Tug of War.

Novelty Race.

Water Polo (Schroeder's VII v Railton's VIII).

At the conclusion of the swimming programme a dance will be held in the West Lounge.

2 MIXED DOUBLES MATCHES PLAYED.

Fincher & Miss Dalziel Win In Two Sets.

E. C. Fincher and Miss O. Dalziel defeated R. H. Wild and Miss H. Hancock by 6-4, 6-4, in the First Round of the Colony Mixed Doubles Championship on the U.S.R.C. Courts yesterday.

S. A. Rumjahn and Miss C. Botelho beat G. W. Sewell and Mrs. C. P. F. James by 4-6, 6-0, 6-2 in the First Round.

SHANGHAI CAPTAINS OPTIMISM.

(Continued from Page 1.)

On the whole, both teams are optimistic of winning. Shanghai according to reports with Northern city's papers have played together a great deal, and the players are expected to show a good example of team co-operation.

Hong Kong is by no means inferior to Shanghai as extensive practice has been carried on for the past month, which has resulted in the forming of a strong team that will offer stern opposition to Judge Franklin's quartette.

The following are the teams:

SHANGHAI

N.Y. Pollock No. 1

C. S. Franklin No. 2 (Captain)

V. P. Woods No. 3

Don Burdick Back

HONG KONG

J. Keswick No. 1

Maj. J. R. Barry No. 2

F. O. Pollock No. 3 (Captain)

Capt. P. S. Villar Back

KEW CAPTURES 4 TROPHIES.

Marriott Easily Wins Reliability Trial.

E. Marriott won the Reliability Trial run over a 290½ miles course last week-end. H. Kew, however, won four prizes, though coming only third.

Full results were as follow:

1. E. Marriott (Rudge) lost 173

points.

2. H. E. Lewis (A.J.S.), 188

points.

3. H. Kew (Norton), 209 points.

4. H. G. Williams (B.S.A.), 225

points.

5. F. V. Wong (Ariel), 257

points.

6. Ng Chu-toe (A.J.S.), 280

points.

7. E. W. Tape (B.S.A.), 321

points.

8. P. M. Rosario (Norton), 333

points.

9. T. S. Whitley (B.S.A.), 341

points.

10. G. H. V. Ribeiro (B.S.A.), 405

points.

11. C. Spalding (Sunbeam), 429

points.

12. H. Dobernetker (Ariel), 545

points.

13. Webb (Scott), 1,285 points.

Both K. C. Hamilton and F. L.

Parton finished the course, but

they failed to check in at one of

the checks.

The team prize was won by H.

Kew, F. V. Wong and E. W. Tape,

who were the only complete team

to finish.

WEAK INCOGNITOS SIDE LOSE.

Y.M.C.A. Second Eleven Well Beaten.

"Y" LADIES LOSE.

Fielding a weak team, being without the services of W. Reed, E. V. Reed and F. G. Barros, the Incognitos were beaten by the only goal scored in the hockey match against the "B" Company, Jat Regiment, on the Marina ground yesterday afternoon.

The absence of their regular players caused many positional changes in the side, with disastrous results. Their forward line lacked combination, J. M. Pinto again being inclined to be selfish. This failing robbed the Incognitos of many fine chances to score in the second half.

The Indians displayed better understanding in every department. Subadar Haidar Khan netted their goal in the last minute of the game.

H.K.S.R.A. SECOND ELEVEN ASSERT SUPERIORITY.

Y.M.C.A. Outclassed.

On the Marina ground yesterday afternoon, the H.K.S.R.A. second eleven defeated the Y.M.C.A. second eleven by 4 goals to nil, in a scrappy match.

The "Y" displayed poor form, and the Indians showed better understanding all round.

"Y" LADIES FAIL TO FIELD FULL SIDE.

Lose to Saints by 3 to 1.

On the Diocesan Girls' School ground yesterday afternoon, the St. Andrew's Club Ladies defeated a depleted "Y" Ladies' team by 3 goals to 1.

The "Y" ladies, who fielded only six—M. Gardner, M. Griffiths, M. Mason, A. Fowler, G. Lakeman and B. Blumenthal—were forced to accept the services of R. Rose and G. Wood of the Saints.

M. Woolley (2) and P. Gittins netted for the Saints, while M. Mason scored the "Y's" only goal.

MAMAK SHIELD.

ENGINEERS REGISTER FIRST WIN OF SEASON.

Veteran Defeated.

The Royal Engineers gained their first victory in the Mamak Tournament yesterday afternoon at King's Park, when they defeated H.M.S. Veteran by a goal scored by Hardling.

Good team work was displayed by both sides, and the Engineers utilised the three-back game with marked success.

CONSIGNEES.

LLOYD TRIESTINO NAV. CO.

NOTICE TO CONSIGNEES.

Chartered, M.V. "COL DI LANA" with cargo ex M.V. "HIMALAYA".

From TRIESTE, VENEZIA, BRINDISI, PORT SAID, SUZU, ADEN, KARACHI, BOMBAY, COLOMBO, PENANG & SINGAPORE.

CONSIGNEES of cargo are hereby informed that all Goods are being landed at their risk into the Godowns of the Hongkong and Kowloon Wharf and Godown Company, Ltd., at Kowloon, whence and/or from the wharves delivery may be obtained.

Owing to the return of the M.V. "Himalaya" to Trieste with Engine Trouble, cargo shipped by her has been transferred to the Chartered M.V. "Col Di Lana" and has now arrived.

Optional cargo will not be landed here, unless notice has been given 48 hours prior to vessel's arrival, but carried on from port to port to the final port of call to which the option extends.

No claims will be admitted after the Goods have left the Godown, and all Goods remaining undelivered after the 18th October, will be subject to rent.

All claims against the vessel must be presented to the Undersigned on or before the 22nd October, or they will not be recognised.

All broken, chafed, and damaged Goods are to be left in the Godown, where they will be examined on the 13th October at 10 a.m. by our surveyors, Messrs. Goddard & Douglas.

In the case of dutiable cargo, Consignees are requested to inform the Imports & Exports Office that they have such goods for examination.

No Fire Insurance has been effected.

Bill of Lading will be countersigned by:

DODWELL & CO., LTD.
Agents
Hong Kong, 7th October, 1932.

STEAMER MOVEMENTS

The P. & O. s.s. Kidderpore left Singapore for this port yesterday at 10 a.m., and is due here on October 19 at about noon.

100 officers and crew employed by the Tyne and Tees Steam Shipping Company, will be thrown out of work when the company lays up four steamers owing to the drop in the import trade due to tariffs.

HARBOUR OFFICE.

Freight Tonnage Maintained.

The Harbour Office Reports for the 24 hours ended at 9 a.m. yesterday gave a free movement of vessels with a high tonnage. Freight were up to the mark, both the inwards and throughs reaching five figures. The total tonnage entered was 33,428.

There were 14 inward registries, of which seven were British and four of four figures, while of the 12 outwards, seven were British and four of four figures.

Passengers entered during the period included 52 Europeans and 2,880 Asiatic deck, British vessels carrying 1,112 out of the total in all classes.

Details follow:

Nationality	Arr. HK	Dep.	Tonnage
British	10	5,436	8
		Tons	Tons
Dutch	1	774	178
German	1	1,118	2,450
French	2	161	
Norwegian	2	3,250	3
Japanese	2	794	130
Chinese	1	160	2
Total	18	11,648	15
		20,008	

WARSHIPS IN PORT.

The following vessels were in port yesterday:

Basin.—Tamar.
North Wall.—Verity and Whitshed.
East Wall.—Parthian, Oswald and Moth.
South Wall.—Keppel, Witch and Wild Swan.
North Arm.—Caradoc.
West Wall.—Suffolk and Wren Dock.—Perseus and Olympus.
No. 6 Buoy.—Devonshire.
No. 12 Buoy.—Whitehall and Veteran.
No. 13 Buoy.—Folkestone.
Foreign Men-of-War.
U.S. river gunboat Mindanao.

HARROWING TALE TOLD OF PIRACY

(Continued from Page 1.)

There the pirates were met by a junk, to which the loot was transferred. Five hostages were also taken off to be held for ransom and the Captain had to accompany the party ashore. He returned later, however, his abduction being a ruse to delay the ship.

The pirates landed at 2 a.m. and the Helikon proceeded to Hong Kong about an hour later.

Interviewed by the *China Mail* shortly after her arrival Miss Edith, one of the lady passengers, said that she and the other lady were awoken by the sound of shots and a dog barking. About two hours afterwards, at 7.30 a.m., the captain came and informed them that the ship was in the hands of pirates.

Played Gramophone.

"I was terribly scared at first" said Miss Boynton, "but the pirates treated us with every consideration. They played our gramophone but returned it to us when they left, and did not take any of our money, or jewellery."

Miss Boynton, who has been in Peiping during recent years as a Librarian, was formerly a missionary, and was returning home to New York, after 14 years' service in China.

"It is rather odd that I should meet with pirates on my last day in China," she smiled.

Mr. I. Chalmers, Chief Officer of the Helikon, said that the raid came without any warning.

"I had come off watch at 4 a.m. that morning and was just off to sleep when the pirates burst in and seized me. I had no alternative but to join the captain and radio officer, who were the first seized and locked up."

"They treated us with consideration, but they were very careful to see we did not try to elude them. Although they had a knowledge of the sea in a general sense, they did not appear to be regular seamen. In fact several of them were seasick, one while on duty on the Bridge. He had to be replaced by another guard.

Gallant Compradore.

The Chief Officer spoke in glowing terms of the bravery of the Compradore, Mr. Fung Wai-cheung. When he first noticed the pirates approaching, Mr. Fung collected the money from the safe and ran into hiding, where he stayed all the day without the pirates finding him. He was captured at nightfall and locked in a cabin, but he escaped through the porthole on to the deck, only to be caught again.

It was stated by the Chief Officer that when the Chinese deck passenger jumped overboard, the pirates refused to turn the ship around to pick him up.

The skipper on the ship is Captain G. Le Fevre, and Mr. I. Chalmers, Chief Officer. The second officer is a Chinese, named Mr. Li. The engine room staff is W. Anderson, Chief Engineer; G. MacCallum, Second Engineer, and Mr. Hon, third engineer. The name of the radio operator is Mr. Chan Ying-sik.

The man who jumped overboard was known as Wu Wai-po.

Admiralty Warned.

At 2.27 a.m. to-day, the Hong Kong Naval Wireless station picked up a message calling the Commodore, China Station, rapped out by the operator aboard the s.s. Helikon.

"Piracy S.S. Helikon at Hie Che Chin Bay. Ship proceeding to Hong Kong. All well." This meagre bit of information sets at rest any fear that harm may have befallen any of the ship's officers, or, for that matter, any of the Chinese aboard, in spite of the fact that five are captives.

The wireless station picked up the additional information towards noon to-day.

Played Gramophone.

"I was terribly scared at first" said Miss Boynton, "but the pirates treated us with every consideration. They played our gramophone but returned it to us when they left, and did not take any of our money, or jewellery."

Miss Boynton, who has been in Peiping during recent years as a Librarian, was formerly a missionary, and was returning home to New York, after 14 years' service in China.

"It is rather odd that I should meet with pirates on my last day in China," she smiled.

Mr. I. Chalmers, Chief Officer of the Helikon, said that the raid came without any warning.

The Helikon was expected here early this afternoon.

She left Hong Kong for Saigon on October 11.

Looted In 1930.

The first piracy in which the s.s. Helikon was involved occurred on July 21, 1930, when the vessel was one day out of Hong Kong on her journey to Saigon. On that occasion she was carrying 500 native passengers and one European saloon passenger.

They treated us with consideration, but they were very careful to see we did not try to elude them. Although they had a knowledge of the sea in a general sense, they did not appear to be regular seamen. In fact several of them were seasick, one while on duty on the Bridge. He had to be replaced by another guard.

Gallant Compradore.

The Chief Officer spoke in glowing terms of the bravery of the Compradore, Mr. Fung Wai-cheung. When he first noticed the pirates approaching, Mr. Fung collected the money from the safe and ran into hiding, where he stayed all the day without the pirates finding him. He was captured at nightfall and locked in a cabin, but he escaped through the porthole on to the deck, only to be caught again.

It was stated by the Chief Officer that when the Chinese deck passenger jumped overboard, the pirates refused to turn the ship around to pick him up.

The skipper on the ship is Captain G. Le Fevre, and Mr. I. Chalmers, Chief Officer. The second officer is a Chinese, named Mr. Li. The engine room staff is W. Anderson, Chief Engineer; G. MacCallum, Second Engineer, and Mr. Hon, third engineer. The name of the radio operator is Mr. Chan Ying-sik.

When the pirates went ashore they also took Mr. J. S. Kirkpatrick, the Chief Officer, but he was allowed to return to the Helikon with the boats about half an hour later.

The European saloon passenger was Mr. Stewart Smith, well-known in Hong Kong.

COMMODORE BACK FROM NORTH.

Visited Peiping With Mrs. Walker.

Commodore A. H. Walker and Mrs. Walker returned to the Colony this morning from a vacation in the North on board the s.s. Empress of Japan.

The Commodore told the *China Mail* that it had been a very pleasant trip. They had spent one week in Japan and three weeks in Peiping. "I think that Peiping is the most wonderful place that I have ever seen," he said. "It is very beautiful and we enjoyed every minute of our stay."

The former Commodore of Hong Kong's Naval Dockyard and his wife will reside at Government House until next Thursday, at which time they will sail for England by way of Manila and Java.

THE PRINCESS IN HAMBURG.

(Continued from Page 1.)

Prince George took leave of his brother and continued his flight in an Imperial Airways liner to Croydon.

The Prince of Wales drove to the British Legation at Hague with the British Minister, Sir Odo Russell. His short visit to Holland is of a private nature, and he leaves for England by boat to-night. — British Wireless Service.

Mysterious Report.

The belief that there were pirates aboard the Helikon on August 21, last year, caused H.M.S. Stormcloud to be rushed to her assistance. A mysterious feature of the affair was that the Helikon's wireless had either been put out of order or broken down.

The Helikon left Hong Kong at 8.30 a.m. on August 21, and was brought back to port at 5.30 a.m. the next day. Police boarded the vessel, which was later berthed at the No. 2 where investigations were proceeded with.

On that occasion, a report was current that three packets were thrown over the side as H.M.S. Stormcloud drew alongside the ship. It was stated then that a woman who was on board the Helikon before she sailed told the Compradore that she had seen the butt-end of a rifle sticking out of a man's pocket. The man was presumably a passenger on the vessel. She refused to sail and left the ship. She was never traced.

When the Stormcloud reached the Helikon, she was about 140 miles from Hong Kong, carrying about 300 Chinese passengers.

Built In Colony.

The s.s. Helikon was built by the Hong Kong and Whampoa Dock Co. Ltd., in 1917, and is a steel screw steamer, registered in Hong Kong. She is equipped with wireless, her tonnage being 2,282 gross and 1,385 net.

She is 270.6 feet long, 40.1 beam and 19.4 deep.

She is under the command of Capt. W. Anderson, the Chief Officer is Mr. J. S. Fitzpatrick, and she carries a Chinese second mate. Mr. W. Anderson is Chief Engineer with Mr. G. E. Moore as second.
